통일주사위놀이

A 10x10 grid of 100 numbered squares (1-100) with a green snake path winding through them. Each square contains a small illustration related to the Korean reunification theme. The snake starts at square 1 and ends at square 100. The path is defined by a thick white line that moves from square to square, following the snake's route. The illustrations include children playing, reading, holding signs, and various symbols of unity and peace.
